Section 2: Overview

Headline: Stock That Moves as Fast as Your Resale Cycle

Subheadline: Bharat Stainless Steel Industries keeps 202, 304, and 316 coil in regular rotation from Hisar - built for traders who can't afford a stuck order, and fabricators who need the right grade the first time.

Body: Bharat Stainless Steel Industries supplies stainless steel coils in 200, 300, and 400 series grades, 0.2mm to 5mm thickness,up to 1250mm width, standard 2B Prime finish - sourced from Jindal Stainless, dispatched from our Hisar, Haryana facility to traders and fabricators across 210+ cities.

Coils are cut and slit to your required length, available for pickup or dispatch from one of the fastest-growing stainless steel manufacturing hubs in North India.

If you're a trader or stockist looking for a stainless steel coil supplier in Haryana, ready availability matters more than anything else - a coil order stuck in transit or short on stock holds up your own resale cycle. We keep 202, 304, and 316 grade coils in regular rotation, sized to the widths most commonly ordered by fabricators making handrails, furniture, and machinery components.

Section 3: Spec Table

Headline: Coil Specifications

Sub-headline: Full technical range at a glance - thickness, size, grade, type, and finish, confirmed before every order.

Spec	Detail
Grade	200, 300, 400 series (202, 304, 304L, 316, 316L, 409, 430)
Thickness	0.2mm – 5mm

Width	Up to 1250mm
Length	As per customer requirement
Finish	2B Prime

Quick terms:

- ***2B = the standard smooth, matte cold-rolled finish used industry-wide.***

Section 4: Why Bharat Stainless

Headline: Why Bharat Stainless Steel Industries

Subheadline: Why traders and fabricators specifically choose Bharat Stainless Steel Industries for coil.

Body: For a trader stocking coil for resale, availability and weight accuracy matter more than anything else - a delayed order or a weight dispute directly hits your own resale margin and timeline. Bharat Stainless Steel Industries keeps 202, 304, and 316 grade coil in regular rotation and confirms every dispatch on the Dharam Kanta before it leaves our Hisar unit, so what you receive matches what you were quoted. 5,500+ MT produced annually across 210+ cities means we're set up for repeat, standing-order relationships, not just one-off sales.

Section 5: Applications

Headline: Applications

Subheadline: Where Bharat Stainless Steel Industries coil actually gets used.

Body: Dairy and food processing equipment, where 2B finish and SS 304 resist moisture and cleaning chemicals · chemical plant fabrication (tanks, piping supports, structural components) · elevator cabin panelling and structural framing · railway coach interior fittings · steel furniture and automobile machinery components.

Section 10: FAQs

Headline: Frequently Asked Questions

Sub-headline: What coil buyers usually ask before ordering.

Body:

FAQs 1: What is the price of SS coil per kg?
Answer: Changes daily with nickel and raw-material rates. Message us on WhatsApp with your grade (202/304/316) and thickness for today's rate.

FAQs 2: What is a 2B finish in stainless steel coil?
Answer: A smooth, matte, cold-rolled and pickled finish - the standard finish for coils used in general fabrication, dairy, and industrial applications.

FAQs 3: What is the difference between 200 and 300 series stainless steel coil?
Answer: 200-series (like 202) has lower nickel content and costs less; 300-series (like 304) has higher nickel and better corrosion resistance in humid or wet conditions. We'll confirm which grade suits your use case rather than substitute one for the other.

FAQs 4: Do you supply SS coils near Hisar and across Haryana?
Answer: Yes - supplied to 210+ cities, with local Hisar and Haryana orders typically moving fastest.

FAQs 5: If I order a standing/repeat coil supply for resale, will grade and width stay consistent order to order?
Answer: Yes - for repeat/standing orders, we hold the same grade and width spec unless you tell us otherwise, so your resale stock stays predictable batch to batch.

Section 11: Bottom CTA

Headline: Stocking Up? Message Your Grade and Width Today

Sub-headline: Stocking up for resale or a project? Message your grade and width for today's rate.
