Section 2: Overview

Headline: The Right Grade Depends on Who's Buying — We'll Tell You Plainly

Subheadline: Bharat Stainless Steel Industries's sheet buyers range from bulk traders to dairy-equipment fabricators, and each needs different grade advice, we give it straight, not whichever grade moves fastest.

Body: Bharat Stainless Steel Industries is a stainless steel sheet supplier in Hisar offering 200, 300, and 400 series SS sheets, 0.2mm to 5mm thickness, standard 2B Prime finish - sourced from Jindal Stainless, available wholesale and in smaller fabrication-scale quantities. Sheet buyers in this market range from traders stocking up for resale to fabricators ordering exactly what a single project needs - and the grade question matters differently for each.

A trader reselling in bulk may prioritize cost and turnover speed; a dairy equipment fabricator needs the corrosion resistance only 300-series grade genuinely provides. We stock across both ends of that range and will tell you directly which grade fits your buyer or your job.

Section 3: Spec Table

Headline: Sheet Specifications

Sub-headline:

Spec	Detail
Grade	200, 300, 400 series
Thickness	0.2mm – 5mm
Width	Up to 1250mm
Finish	2B Prime

Quick terms:

- **2B** = the standard smooth, matte cold-rolled finish.

Section 4: Why Bharat Stainless

Headline: Why Bharat Stainless Steel Industries

Subheadline: Why both traders and fabricators trust Bharat Stainless Steel Industries on sheet.

Body: Sheet is the product where Bharat Stainless Steel Industries sees the widest split between buyer types - traders reselling in bulk, and fabricators building for a specific end use - and the two need different grade advice, which is exactly what we give. We'll tell you plainly whether SS 202 or SS 304 fits your actual buyer or job, rather than push whichever grade is easiest to move that week. Every sheet is sourced from Jindal Stainless and weighbridge-verified before dispatch, backed by 12+ years and 650+ customers across both trader and fabricator segments.

Section 5: Applications

Headline: Applications

Subheadline: Where Bharat Stainless Steel Industries sheet actually gets used.

Body: Dairy and food product manufacturing, where 2B finish and SS 304 hold up against washing and moisture · pharmaceutical equipment · chemical plant linings · elevator panelling · steel furniture · railway coach interior fabrication

Section 10: FAQs

Headline: Frequently Asked Questions

Sub-headline: What sheet buyers usually ask before ordering.

Body:

FAQs 1: What is the price of SS 304 sheet per kg?
Answer: Changes daily with nickel rates. Message us on WhatsApp with your thickness requirement for today's rate.

FAQs 2: What is the difference between SS 202 and SS 304 sheet?
Answer: SS 202 has lower nickel content, more economical; SS 304 has higher nickel and much better corrosion resistance, especially in humid or wet-use conditions. The two can look identical when new but perform very differently after 1–3 years, we always confirm exactly which grade you're getting.

FAQs 3: Do you supply SS sheets wholesale in Hisar and Haryana?
Answer: Yes - wholesale supply from our Hisar facility to traders, fabricators, and businesses across Haryana and 210+ cities.

FAQs 4: What is a 2B finish sheet used for?
Answer: A smooth, matte, cold-rolled finish suited to general fabrication, dairy equipment, and industrial use - BSSI's standard sheet finish.

FAQs 5: If I'm buying wholesale to resell, how do I know I'm not being sold a downgraded grade at a 304 price?
Answer: Ask us to confirm grade in writing before the order is finalized - we'll state clearly which grade you're buying, and you're welcome to verify it independently before resale.
