I want a **full website** (5–7 pages + blog) I can update myself.	**₹9,999 · Business**
It has to look **premium** and actively convert visitors.	**₹14,999 · Pro**
I want to **sell products online** — take orders & payments.	**₹24,999 · Commerce**
I need to be **found at scale** — many pages, many languages.	**₹49,999 · Flagship**

PLAN 01 · STARTER

₹4,999 Starter

Best for: a serious business that needs one sharp page — credibility + enquiries, fast.

> One high-craft page that makes your business look established and turns visitors into calls and messages.

WHAT'S INCLUDED

- ✓ **Copywriting** for the whole page — we write it
- ✓ **Enquiry / contact form** straight to you
- ✓ **On-page SEO** — built search-ready
- ✓ **Mobile-perfect** on every phone
- ✓ **1 free revision** · you own 100%

WHY THIS PLAN

A single page done right is not a cheap page. Custom layout, written for you, and built to convert — agencies quote ₹15,000+ for exactly this.

You're paying for **craft and ownership**, not a drag-and-drop template that looks like everyone else's.

Perfect if you're a consultant, clinic, local service, or a brand testing the water before going bigger.

★ MOST POPULAR

₹9,999 Business

Best for: most businesses — a complete website that tells your full story and brings in enquiries.

> A complete 5–7 page website that turns visitors into enquiries — plus a blog you can update yourself, no developer needed.

WHAT'S INCLUDED

- ✓ **5–7 pages** (Home, About, Services, Gallery, Contact...)
- ✓ **Professional copywriting** across the whole site
- ✓ **Blog / CMS** you post to yourself, anytime
- ✓ **Enquiry forms** + search-ready SEO on every page
- ✓ **Basic analytics** + mobile-perfect build
- ✓ **1 free revision** · you own 100%

WHY THIS PLAN

This is a complete web presence, not a page. The real cost here is the writing — 5–7 pages written professionally is ₹22,500+ as copy alone.

You get the site, the words, **and the power to keep it fresh yourself** — post offers, news, blogs without paying anyone.

It's the choice most serious businesses land on — enough to do everything, without paying for what you don't need yet.

PLAN 03 · PRO

₹14,999 Pro

Best for: brands where the *feel* must be premium and the site has to actively sell.

> A premium, custom-animated website designed around one job: turning visitors into customers.

WHAT'S INCLUDED

- ✓ **Everything in Business** , plus —
- ✓ **Custom animation** & scroll interactions
- ✓ **Conversion-focused design** pass
- ✓ **Deeper, sharper copywriting**
- ✓ **Priority delivery**
- ✓ **1 free revision** · you own 100%

WHY THIS PLAN

Custom motion + a conversion-designed layout is specialist work. Animation alone runs ₹30,000 freelance.

This is for when "looking nice" isn't enough — when the site has to **out-class your competitors** and guide every visitor toward contacting or buying.

Perfect for premium D2C, design-led brands, and anyone whose competitors currently look better than them.

PLAN 04 · COMMERCE

₹24,999 Commerce

Best for: businesses ready to *sell* online — take orders & payments around the clock.

> A real online store — product catalogue + cart + secure Razorpay checkout — that takes money while you sleep.

WHAT'S INCLUDED

- ✓ **Product pages** — photos, prices, variants
- ✓ **Cart + secure Razorpay checkout** (UPI/card/netbanking)
- ✓ **Order flow** — every order to you, clean
- ✓ **Copywriting + SEO + mobile-perfect**
- ✓ **1 free revision** · you own 100%
- ✓ *Or:* a standout **3D / interactive hero** instead of a store

WHY THIS PLAN

A store isn't a webpage with prices on it. It's a checkout that handles money, orders and customers safely — that's real engineering.

Agencies quote **₹80,000–₹1,20,000** and take a month for this. You get a real, owned store from ₹24,999.

You stop just *showing* your products and start **selling** them. Perfect for D2C brands, food & beverage, boutiques, anyone with products.

PLAN 05 · FLAGSHIP

₹49,999 Flagship from

Best for: brands that want to be *found at scale* — many pages, many languages, blazing fast.

> A growth engine: a lightning-fast headless site with up to 500 auto-generated SEO pages and multilingual reach.

WHAT'S INCLUDED

- ✓ **Headless architecture** — extremely fast
- ✓ **Up to 500 auto-generated SEO pages** (scoped)
- ✓ **Multilingual** reach
- ✓ **Conversion design + deep copy + the works**
- ✓ **1 free revision** · you own 100%

WHY THIS PLAN

This is infrastructure, not a website. It's built to capture hundreds of Google searches and serve customers in multiple languages.

Agencies bill **₹3–5 lakh** over months for this. You get it from ₹49,999, scoped to your project.

Honest note: "500 pages" = a smart template + your data, agreed up front (not 500 hand-written pages). SEO = search-ready structure; rankings are always Google's call — no "guaranteed #1" here.

TIMELINE	SCOPE	YOU OWN
Several days, scoped	"From" price — quoted to your project	Everything we build

How to start: we scope it with you first, then a 50% advance kicks off the build. You own all of it.

Bolt on anything.

Snap any of these onto any plan. We always tell you the price **before** we touch it — nothing is ever added to your bill without a yes.

Logo + full brand kit Logo, colours, fonts — your complete identity	₹7,999
Extra page Add to any plan as you grow	₹999
Copywriting We write it, you don't — per page	₹499
Programmatic-SEO pack Lots more pages, built to be found on Google	₹9,999

Website Care — the part that keeps it working

We keep your site **fast, secure and up to date** — and any small change you need, just message us and it's done. No logins, no plugins, no stress. **₹1,000/mo** for Starter sites · **₹1,999/mo** for Business & up. Cancel anytime.

A website is a living thing — Care is how it stays fast and current instead of slowly breaking. Most clients add it on day one; it's optional, always.

Simple, safe, yours.

1. **You message us** — tell us your business in a line. We confirm the plan, the exact price, and the timeline. No surprises.
2. **50% advance via Razorpay** (proper invoice + receipt — never a personal UPI). The moment it clears, your build clock starts.
3. **We design & build it** — copy, branding, the lot. You preview it on your own phone. **1 free revision** included.
4. **You're live — and you own everything.** Balance is due only once it's delivered and you're happy.

You own 100% of it

Domain **in your name** · hosting on **your own account** (free for life — no monthly bill to us) · the code & content are **yours to keep**. Fire us tomorrow and your site keeps running. No lock-in, ever.

Honest small print — Free domain = setup + year 1; you renew after at cost (~₹800–1,000/yr, your asset, your name). SEO = we build you search-ready; rankings depend on Google — no "guaranteed #1." AI search = we structure your site so AI assistants can find you; we can't guarantee they'll cite you. Flagship is "from"/MVP scope — final scope agreed before we start. Premium builds (Pro / Commerce / Flagship) take a few days, not 48 hours — built properly, not rushed.
