Website + iOS & Android apps — one system, one team.

A complete rebuild of rajeshwarishomefood.com with full online ordering & payments, plus your own apps on the App Store and Play Store — all three running on one shared backend, managed from a single admin panel.

TOTAL — FIXED PRICE	WEBSITE PREVIEW	FULL DELIVERY
₹2,00,000	**Week 2** Live link, fully working	**4–5 weeks** Apps + website + admin, handed over

PRICE BREAK-UP

E-commerce website — full redesign Product catalog, cart & checkout, online payments, customer accounts	₹50,000
iOS + Android apps Both platforms from one codebase — same features, half the cost of building twice	₹1,30,000
Admin panel + shared backend Update menu & prices once — changes appear on website and both apps instantly	₹20,000
Total — full scope on page 2 included	**₹2,00,000**

PAYMENT TERMS — SEE IT WORKING BEFORE EACH PAYMENT

01	**Advance to start the build** Locks the team & timeline on your project. Work starts the same day.	₹60,000
02	**After you approve the website on a live preview link** Browse products, add to cart, test checkout — verify everything yourself first.	₹70,000
03	**On app handover & store submission** Both apps tested on your phone, submitted to App Store & Play Store.	₹70,000

> **Your risk is capped at ₹60,000.** Before any further payment you get a fully working website preview to click through yourself — we never ask for the next milestone until you've approved the previous one, live.

- ✓ Cart, checkout & online payments (Razorpay/UPI)
- ✓ Delivery areas, charges & COD option
- ✓ Order confirmation on WhatsApp/email
- ✓ Full product catalog with categories
- ✓ Customer accounts & order history
- ✓ Discount coupons & offers
- ✓ Fast loading + basic SEO setup

02 iOS & Android Apps

- ✓ Both apps from one codebase — identical features
- ✓ Push notifications — today's menu, offers, order updates
- ✓ Published under your own developer accounts
- ✓ Full ordering — browse, cart, pay, track
- ✓ 2-tap reorder & saved addresses for regulars
- ✓ Store listings (screenshots, descriptions) & submission by us

03 Admin Panel + Shared Backend

- ✓ Add/edit products, prices & photos yourself
- ✓ One update → website + both apps, instantly
- ✓ Customer list with order history
- ✓ Mark items sold out with one tap
- ✓ Orders dashboard — see & manage every order
- ✓ Training call on handover — you run it yourself

WE NEED FROM YOU, DAY 1

- — Menu list with prices
- — Product photos & logo files
- — Razorpay account (we help set up)
- — Apple & Google developer accounts (we help register)
- — Domain & hosting access

ON YOUR SIDE (PAID DIRECTLY)

- — Apple Developer — $99/year (Apple's fee)
- — Google Play — $25 one-time (Google's fee)
- — Domain & hosting renewals
- — Payment gateway charges (~2%/transaction, Razorpay's fee)

GOOD TO KNOW

- — 30-day free bug-fix warranty after handover
- — Your current products & customers migrated free
- — Weekly progress updates on WhatsApp
- — 2 rounds of design revisions included
- — App Store review (1–7 days) is Apple's & Google's timeline
- — Full source code handed over — you own everything

OPTIONAL ADD-ONS — CAN BE ADDED ANYTIME, BEFORE OR AFTER LAUNCH

AI search visibility (AEO)
Show up when customers ask ChatGPT & Google AI for "best home food in Mumbai"
₹20,000

Local SEO pack
Auto-generated pages for every area & dish ("tiffin in Andheri") + Google Business setup
₹25,000

Branding kit
Logo refresh, colours & social media templates — one consistent look everywhere
₹15,000

Care Plan OPTIONAL

₹7,999/month · first month FREE

- ✓ Menu, price & product updates — up to 20/month
- ✓ Bug fixes, uptime monitoring & backups
- ✓ App updates for new iOS/Android + store compliance
- ✓ Priority WhatsApp support + small design tweaks

Without a Care Plan, changes & app updates after handover are billed at **₹1,500/hour** — one iOS update can exceed a month of Care.
