Accounts

Login (phone)	Password	Role	What to look at
CRM — YOUR OFFICE TEAM			
9999900001	qcred@123	**Super Admin**	Full access to everything. Please start here.
9999900002	qcred@123	**Maker** — staff	Sees only his own leads, not the whole book — access levels working.
9999900003	qcred@123	**Checker**	Can approve payouts but cannot raise them — the same person can never do both.
PARTNER PORTAL — YOUR CHANNEL NETWORK			
9820011001	qcred@123	**Sub-DSA** QC-MH-MUM-SDA-0001	The partner's own portal, with a connector team reporting under him.
9820011010	qcred@123	**Business Head** QC-MH-BH-01	State-level code format — no city segment, 2-digit sequence.
9820011012	qcred@123	**Cluster / Regional Head** QC-UP-CH-01	The optional Tier 3 layer from your framework document.
9820011003	qcred@123	**Connector** — certified QC-MH-MUM-CON-0001	Certified, so he is permitted to collect KYC documents.
9820011013	qcred@123	**Connector** — not trained QC-KA-BLR-CON-0001	Activation is blocked until training is recorded — Section 4 of your framework, enforced.

Your coding framework is fully implemented. Every partner code above is generated by the system in the exact format from your document — state code, city code, partner type and a sequence running per state-city-type combination. Codes are permanent and can never be reused.

Please note: all customers and partners in the system are fictional demonstration data, created only for this review — no real customer information has been used. These passwords are for review only; your team's real accounts are created when the platform moves onto your own domain.
