★ MOST POPULAR

₹9,999 Business

Best for: most businesses — a complete website that tells your full story and brings in enquiries.

> A complete 5–7 page website that turns visitors into enquiries — plus a blog you can update yourself, no developer needed.

WHAT'S INCLUDED

- ✓ **5–7 pages** (Home, About, Services, Gallery, Contact...)
- ✓ **Professional copywriting** across the whole site
- ✓ **Blog / CMS** you post to yourself, anytime
- ✓ **Enquiry forms** + search-ready SEO on every page
- ✓ **Basic analytics** + mobile-perfect build
- ✓ **1 free revision** · you own 100%

WHY THIS PLAN

This is a complete web presence, not a page. The real cost here is the writing — 5–7 pages written professionally is ₹22,500+ as copy alone.

You get the site, the words, **and the power to keep it fresh yourself** — post offers, news, blogs without paying anyone.

It's the choice most serious businesses land on — enough to do everything, without paying for what you don't need yet.
