PLAN 05 · FLAGSHIP

₹49,999 Flagship from

Best for: brands that want to be *found at scale* — many pages, many languages, blazing fast.

> A growth engine: a lightning-fast headless site with up to 500 auto-generated SEO pages and multilingual reach.

WHAT'S INCLUDED

- ✓ **Headless architecture** — extremely fast
- ✓ **Up to 500 auto-generated SEO pages** (scoped)
- ✓ **Multilingual** reach
- ✓ **Conversion design + deep copy + the works**
- ✓ **1 free revision** · you own 100%

WHY THIS PLAN

This is infrastructure, not a website. It's built to capture hundreds of Google searches and serve customers in multiple languages.

Agencies bill **₹3–5 lakh** over months for this. You get it from ₹49,999, scoped to your project.

Honest note: "500 pages" = a smart template + your data, agreed up front (not 500 hand-written pages). SEO = search-ready structure; rankings are always Google's call — no "guaranteed #1" here.

TIMELINE	SCOPE	YOU OWN
Several days, scoped	"From" price — quoted to your project	Everything we build

How to start: we scope it with you first, then a 50% advance kicks off the build. You own all of it.
